Autumn 1 Maths Homework

Dear Parents and Carers,

As we begin the new school year, we are pleased to share our **Autumn 1 maths homework sheets**, which outline the key areas of mathematics your child has been learning this half term.

As in previous years, our approach focuses on making maths homework **practical, enjoyable and manageable for families**. Each sheet includes key vocabulary, questions to encourage mathematical discussion and simple activities and games that can be enjoyed together at home.

We recommend choosing an activity and spending around **10 minutes, 2–3 times a week**, exploring the maths together. Repeating activities is encouraged, as this helps children develop confidence, fluency and a secure understanding of key mathematical concepts.

Please remember that maths can also be practised naturally through everyday activities, such as cooking, shopping, playing games and discussing numbers, shapes and measurements.

Thank you for your continued support. By working together, we can help children develop confidence, enjoyment and a positive attitude towards mathematics.

If you have any questions about the homework or your child's learning, please speak to their class teacher.

Kind regards,

Mr Fletcher
Maths Lead

Empowering children to shape their future
